

Educational Policy and Leadership Studies, EdD

The Doctor of Education (EdD) in educational policy and leadership studies is designed for educators who seek a terminal doctoral degree to practice upper-level leadership in pre-kindergarten through higher education (PK-20) settings. Based on the scholar-practitioner model, the EdD differs from the PhD in that it allows for a more practical-based approach to use and perform applied research in educational settings grounded in problem-based learning pedagogy. The EdD employs a blended learning delivery of hybrid (online and in-person), condensed, and weekend courses.

The EdD is a non-deposit degree program. Students complete a dissertation in practice based on a problem of practice in their own work setting. The dissertation proposal course serves as the equivalent of the comprehensive exam, and an applied dissertation is required for graduation.

Learning Outcomes

EdD graduates will be able to:

- apply the knowledge, skills, and inquiry strategies to solve significant problems related to educational policies and practices;
- evaluate and use data to make judgments to improve practice and policy;
- understand and apply evidence of effective organizational and systemic change for equity, inclusion, and justice;
- frame situations from multiple perspectives;
- identify and meet contemporary challenges facing schools and higher education;
- embrace differences of persons and perspectives;
- develop a critical and professional perspective that is ethical and promotes change for equity and inclusion;
- link theory with systematic inquiry and assessment to improve educational policy and practice; and
- complete a dissertation in practice using scholarly methods to address field-based problems and develop meaningful solutions.

Higher Education

The Doctor of Education program in educational policy and leadership studies with a higher education subprogram requires 75 s.h. of graduate credit. This can include up to 36 s.h. of transfer credit from a previous master's degree with advisor approval, which requires 39 s.h. to be completed at the University of Iowa under the auspices of the Graduate College after program admission. For students who have previously earned an EdS degree, the registration requirement is 27 s.h. (transfer credit limit is 48 s.h.). University of Iowa doctoral students must earn a UI cumulative grade-point average (GPA) of at least 3.00 to be eligible for degree conferral.

The EdD in educational policy and leadership studies with a higher education subprogram requires the following coursework.
